- 15 Jan 08, Lee Jordan, Karen Schuessler, and Hal Rodgers began an internal audit of our finances, with Suellyn and Roger observing. Findings were: an un-cashed check from the state; an unsigned check from the annual dinner; and 3 bank statements were missing. Roger was to take the check to the bank and get reprints of the three missing statements. Suellyn called Hunt Kerrigan re the unsigned check (he said he was called right after the dinner about it and voided that one out and sent another [yet to be verified]. There appeared to be two checks in the same amount made out to MTA. See attached report. **WORKING**
